BRUNA LOPES DOS SANTOS

FRONT-END DEVELOPER | REACT.JS | REACT NATIVE

Vitória, ES, Brazil · (27) 99578-5541 · bruna-lopess@outlook.com - linkedin.com/in/bruna-lopes-dos-santos/

PROFESSIONAL SUMMARY

Front-end Developer with over 6 years of experience developing web and mobile applications, with strong expertise in React.js, React Native, and TypeScript. Postgraduate in User Experience Design and Beyond from PUCRS, combining a strong technical background with a UX perspective focused on usability and digital products centered on people's needs. Experienced in technical project leadership and occasional coordination of development teams, contributing to technical direction, priority setting, delivery tracking, and team support. Also experienced in accessibility, Design Systems, component libraries, technical documentation, and close collaboration with Product, Design, and Engineering.

CORE COMPETENCIES

- **Front-end:** React.js, JavaScript, TypeScript, component-based development, maintenance, and evolution of web applications.
- **Mobile:** React Native and cross-platform mobile experience development.
- **Design Systems:** Creation and maintenance of component libraries, visual standardization, and documentation.
- **Accessibility:** Practices aligned with WCAG Level AA and Brazilian ABNT standards, including keyboard navigation and assistive technologies.
- **UX & Usability:** Development of responsive, inclusive interfaces tailored to different user profiles.
- **Software Engineering:** API integration, Git, code review, and software development best practices.
- **Collaboration:** Collaboration with Product, Design, and Engineering on refinement, technical decisions, and product evolution.
- **Technical Leadership:** Experience providing technical leadership on projects and coordinating small development teams, supporting priorities, deliveries, and team growth.
- **Healthcare & Innovation:** Experience developing digital solutions for the healthcare sector, including innovation projects and artificial intelligence integration.

PROFESSIONAL EXPERIENCE

TRUSTLY

Senior Front-end Developer

Aug 2021 - Present

- Develop and evolve front-end interfaces and components, with a focus on quality, reusability, and maintainability.
- Work with React.js and component-based practices to build and evolve shared solutions.
- Collaborate with Product, Design, and Engineering on the definition, refinement, and implementation of new features.
- Contribute to visual consistency, code quality, technical documentation, and the evolution of components and Design Systems.
- Apply accessibility and usability best practices when building digital experiences.
- Provide technical leadership on projects and occasionally coordinate the development team, supporting technical decisions, priority setting, delivery tracking, and developers.

MEDSÊNIOR

Mid-level Front-end Developer

May 2021 - Aug 2021 · 4 months

- Worked at MIL, an innovation lab focused on applying new technologies to the healthcare market.
- Developed a customized video calling system for healthcare providers and health plans using Twilio.
- Developed solutions for exam and procedure requests, as well as a service queue for new health plan members, supporting interviews conducted by nurses.
- Integrated an AI-based COVID-19 X-ray application developed in partnership with CIMATEC.
- Contributed to a project awarded 2nd place in the 1st National Digital Projects Competition - Use of Technology in the Fight Against COVID-19, organized by the Brazilian Society of Health Informatics.
- Technologies and skills: React Native, React.js, JavaScript, TypeScript, and service integrations.

MEDSÊNIOR

Junior Front-end Developer

Sep 2020 - May 2021 · 9 months · Vitória, ES

- Developed and maintained features in web applications using JavaScript, TypeScript, and technologies from the React ecosystem.
- Contributed to the evolution of digital products for the healthcare sector, working closely with different business areas.
- Implemented interfaces, fixes, and continuous improvements in applications used by health plan members and internal teams.

EDUCATION

PUCRS - Pontifical Catholic University of Rio Grande do Sul

Postgraduate Degree in User Experience Design and Beyond

Feb 2024 - Aug 2025

Program focused on user experience (UX), user research and needs discovery, experience design, usability, and the development of user-centered digital products, complementing a technical background in front-end development.

FAESA

Technology Degree (CST) in Systems Analysis and Development

Jan 2021 - Jun 2023

LANGUAGES

- **English:** Professional Working Proficiency, with the ability to communicate effectively in professional and technical contexts.
